GLOBAL ENERGY NETWORK INSTITUTE
a solution to global problems

15 June 2009

GENI Foundation Annual Report for 2008-2009 year

Thankyou to you once again for your continued support of the GENI Foundation and in holding a vision of global co-operation.

Trust you enjoy reading the latest information via the Monthly Reports that Peter Meisen sends us every month. They are the latest information regarding renewable energy happening in the world today. This is the role the GENI plays, an institute that researches and disseminates information on the relationships between population, development, environment and energy issues.

Once again here in Victoria we played out our little part and held a fabulous event on United Nations World Environment Day on the 5th June 2009.

We showed a Dvd "History of the Future" by Michael Kessler, demonstrating what one man can do in making a difference towards solutions for a better planet. We do have a few of his products for sale, Dvd \$20. Cd \$25. (Bluegrass music) and his Book \$20.

We also invited to speak on the evening:

- Malcolm Green, Author of 'Cosmic Accounting' to speak about Solar Dishes and what these power houses could mean for Australia.
- Peter Ellyard, Author of his latest book '2050' to speak about our future, where we are heading and highlighting different approaches to a peaceful world.
- Charles Kovess, a trustee of GENI Foundation and Author "Passionate People Produce" was the host for the night, Charles spoke about Bucky and what one man can do and igniting your passions!.

From holding this event, another evening has been proposed to much delight of us all. And the beat goes on...

Please also find enclosed the 2009 GENI Support Form regarding membership renewal. The renewal date is Bucky's birth date on the 12 July every year.

Ruanna Segal
